

The *Europa* Systems Magazine, no-prize Contest (from TESM #87):

The R-Class Battleships in Board Wargaming

We have heard that some people persist in believing there is wargaming outside of *Europa*. For those of you who take pride in belonging to this cult of non-*Europa* gaming, we present this no-prize contest.

Below are 24 counters, each depicting an R-Class battleship in a different form, covering over 40 years of published wargames. Identify the game from which each counter comes. Since we can't do this in color, we've given the primary background color. To view the color version, visit the HMS website at www.hmsgrd.com. The answers will appear in the next issue.
